FRS MISSION STATEMENT

To serve and represent the interests of the Florida House of Radiology* by

1. Committing efforts and resources to advocate for cost effective, safe and accurate imaging and patient care, thereby improving the quality of patient care statewide.

2. Positively influencing the socio-economic factors affecting the practices of the House of Radiology in Florida via:
   a. Representation to government and commercial payors
   b. Educational efforts and communication with the FRS membership

3. Representing the Florida House of Radiology in coordinated efforts with other radiological and medical organizations at the local, state and national levels.

4. Actively participating in relevant Florida medical government affairs to:
   a. Monitor, influence and propose appropriate legislation
   b. Monitor and influence state medical regulatory affairs regarding medical imaging and radiation therapy

* The “Florida House of Radiology” is made up by the constituent parts of the FRS including: Diagnostic radiologists, interventional radiologists, radiation oncologists, nuclear medicine physicians and medical physicists.

Dear Course Participant,

Thank you for your participation in this course. You should have received an email to the Course Evaluation. Completion of this evaluation is an accreditation requirement. If you did not receive the email please see the registration desk or go to:

https://www.surveymonkey.com/r/FRSRO16

The feedback you provide as a course participant will help us evaluate the effectiveness of this program and will assist us in developing future activities.

Thank you!

Educational Symposia
In accordance with the Accreditation Council for Continuing Medical Education's Standards for Commercial Support, Educational Symposia requires that all Planning Committee, academic faculty members, and peer reviewer(s) involved in the development of CME content disclose financial relationships which have relevance to the CME content of the activity. An individual has a relevant financial relationship if he or she (or his or her spouse/partner) has a financial relationship in any amount occurring in the last 12 months with a commercial interest whose products or services are discussed in this CME activity, and over which the individual has content control.

The Planning Committee, academic faculty members, and peer reviewer(s) for this symposium were required to complete a Full Disclosure Form, and their disclosures, if any, are listed below. If relationships were identified, those Planning Committee and/or faculty members, and/or peer reviewer(s) attested that such relationship(s) would not cause them to be commercially biased. In addition, each has signed a Resolution of Conflict of Interest form agreeing that, when developing or presenting content discussing healthcare products or services with those manufacturers or providers with whom he or she (or his or her spouse/partner) has a relevant financial relationship, they will: (1) use the “best available evidence” in the specialty or therapeutic area as support for any statements he or she makes about those products or services; (2) not make patient care or practice recommendations based on his or her “clinical experience” only, although he or she may indicate that a particular product or service is utilized in his or her practice; and (3) not express a personal or professional preference for those products or services.

Faculty members have been advised that if their lectures will include discussion of off label or investigational use of any product, they must disclose this to the audience.

EDUCATIONAL OBJECTIVES

Attendees should, at the completion of this course, be able to:

• Understand radiotherapy toxicities and symptom control.
• Understand the role of proton radiation therapy in the treatment of pediatric brain tumors.
• Understand the role of radiation therapy in the treatment of lung cancer.
• Understand the role of radiation therapy for central nervous system tumors.
• Understand the role of prostate choline PET in radiation therapy of prostate cancer.
• Understand the role of radiation therapy in the treatment of esophageal cancer.

No special educational preparation is required for this CME activity.

ACCREDITATION

Physicians: This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education through the joint providership of Educational Symposia and the Florida Radiological Society. Educational Symposia is accredited by the ACCME to provide continuing medical education for physicians.

Educational Symposia designates this live activity for a maximum of 5.25 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
