Pathology Review: Genitourinary, Gynecologic

About the Meeting

This seminar is designed to provide a comprehensive review of prostate, bladder and testicular pathology. In addition, a detailed review of gynecologic tumors and cytopathology of the head and neck will complete the program.

Target Audience

This CME activity is primarily intended and designed to educate pathologists.

Educational Objectives

Attendees should, at the completion of this course, be able to:

- Recognize, assess and more accurately evaluate adenocarcinoma of the prostate, intraepithelial neoplasia of the prostate and radical prostatectomy specimens.
- Classify, diagnose and differentiate urothelial neoplasms.
- Recognize and more accurately assess benign and malignant cervical lesions, surface epithelial tumors and metastatic tumors of the ovaries.
- More accurately diagnose endometrial carcinoma and review problems of diagnosis.
- More accurately diagnose and evaluate tumors of the fallopian tube and broad ligament.
- Recognize pitfalls in the diagnosis of testicular tumors.
- Increase understanding of head and neck cytopathology and fine needle aspirations in lymphoma diagnosis.

No special educational preparation is required for this CME activity.

Program Accreditation

Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to sponsor continuing medical education for physicians.

Educational Symposia designates this educational activity for a maximum of 20 *AMA PRA Category 1 Credit(s)*TM. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Needs Assessment

This is an annual meeting aimed at improving the quality of diagnosis and consulting in pathology. The topics are selected through the review of previous evaluations, faculty perception, and requests from participants.
