## About The Meeting

This seminar has been designed to provide a practical and comprehensive review of a variety of topics in surgical pathology including gastrointestinal, genitourinary, head and neck, soft tissue and hepatic pathology. This course will include an overview of diagnostic pearls which allow for an accurate diagnosis as well as how to best avoid important diagnostic pitfalls. Some of the discussion will be related to pertinent diagnostic immunohistochemical and molecular genetic techniques, which allow the pathologist to refine their diagnosis, as well as significant opportunity for interactive discussion between members and participants.

## Target Audience

This CME activity is primarily designed to educate practicing pathologists.

## Scientific Sponsor

Educational Symposia

## Accreditation

**Physicians:** Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Educational Symposia designates this live activity for a maximum of 17.5 *AMA PRA Category 1 Credit(s)<sup>TM</sup>*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Educational Symposia is approved by the American Board of Pathology (ABP) to offer Self-Assessment credits (SAMs) for the purpose of meeting the ABP requirements for Maintenance of Certification (MOC). Registrants must take and pass the post-test in order to claim SAMs credit. Physicians can earn a maximum of 17.5 SAM credit hours.

## Educational Objectives

Attendees should, at the completion of this course, be able to:

- Recognize the major diagnostic pitfalls in the diagnosis of Barrett's esophagus and Barrett's-related dysplasia.
- Discuss the more recently recognized variants of ulcerative colitis as well as some of the issues related to diagnosing dysplasia in the setting of IBD.
- Identify some of the major diagnostic issues in the most common colorectal polyps, including serrated polyps.
- Recognize the soft tissue tumor types which are prone to misdiagnosis.
- Use and interpret modern diagnostic techniques in the evaluation of soft tissue tumors.
- Explain the spectrum of benign spindle cell lesions in the breast.
- List the anatomic locations where HPV-related carcinomas typically occur.
- Describe the typical morphology of HPV-related oropharyngeal carcinoma.
- Name some of the newer gene fusions associated with salivary gland tumors.
- Recognize the most important diagnostic challenges in assessing prostate needle biopsies.
- Discuss diagnostic pitfalls in bladder biopsy and TURBT specimens.
- Name the entities associated with eosinophilic cytoplasm in renal tumors.
- Identify the biliary pattern of injury on liver biopsy.
- Recognize distinguishing features of steatosis from steatohepatitis.
- List the appropriate immunohistochemical work-up of primary liver tumors.

*No special educational preparation is required for this CME activity.*

## Course Organization

This program is planned and organized by Educational Symposia, a leader in continuing medical education since 1975.

## Acknowledgement

Educational Symposia appreciates our corporate supporters and exhibitors. A list of industry supporters will be provided and acknowledged at the meeting.

## Cancellations

Cancellations must be received in writing. A \$50 processing fee will be applied to all cancellations. Refunds requested in writing prior to **March 23, 2018** will be issued for the amount of tuition paid less the \$50 processing fee. No refunds will be made on or after that date.

## Registration Information

**Tuition for live conference** includes all course materials, an electronic color course syllabus (printed color syllabus available for \$95, advanced purchase only), daily continental breakfasts and coffee breaks. Early registration is strongly suggested. There will be a \$100 surcharge for anyone registering after **April 10, 2018**. Minimum and maximum attendance levels have been established for this meeting. If your registration cannot be accepted, you will be issued a full tuition refund.

**Tuition for live webcast** includes participation for one registrant. Each registrant must sign-in on a separate computer to receive credit. Prior to the meeting we will send you further information about the log in process. We will also send you an electronic color course syllabus via email. If you have any questions or problems logging into the meeting we will have support personnel available at (800) 338-5901. There will be a \$100 surcharge for anyone registering after **April 10, 2018**.

**Please note:** A minimum number of registrants is required to live webcast this course. If the minimum number is not met by **March 23, 2018** the live webcast activity may be cancelled and a full refund issued.
