# Hot Topics in Radiology

## About The Meeting

This symposium is designed to provide an update on a variety of new cutting-edge developments in diagnostic imaging and intervention. Topics include new techniques and practical applications of MRI and CT. Emphasis of this meeting is on the practical clinical uses of new technologies. Faculty members have been selected for their teaching ability, as well as their expertise.

## Target Audience

This CME activity is primarily intended and designed to educate diagnostic imaging physicians who perform and interpret imaging examinations. The content will be beneficial to Neurologists, Emergency Medicine Physicians and General Practitioners who order or integrate imaging information into practice management.

## Scientific Sponsor

Educational Symposia

## Accreditation

**Physicians:** Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Educational Symposia designates this live activity for a maximum of 19.25 AMA PRA Category 1 Credit(s)<sup>TM</sup>. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**Technologists:** This program has been submitted to the ASRT. The number of A CE credits will be available approximately 30 days prior to the meeting. Please visit [www.edusymp.com](http://www.edusymp.com) or call 1-800-338-5901 regarding the availability of Category A CE credit.

**Self-Assessment Modules (SAMs):** Educational Symposia has been granted Deemed Status by the American Board of Radiology (ABR). This allows Educational Symposia to develop and implement SAMs that satisfy ABR Part II MOC requirements.

## Educational Objectives

Attendees should, at the completion of this course, be able to:

- Discuss new cutting edge applications of MR and CT imaging.
- Compare the utility of CT and MRI in the evaluation of various musculoskeletal, body and cardiovascular applications.
- Integrate cutting edge technologies into the workup of neurological disease.
- Discuss the utility of MRI and CT in the workup of spine disease and intervention.
- Discuss modern breast imaging techniques and controversies.
- Review safety updates for contrast administration and radiation dose reduction.

*No special educational preparation is required for this CME activity.*

## Course Organization

This program is planned and organized by Educational Symposia, a leader in diagnostic imaging education since 1975.

## Acknowledgement

Educational Symposia gratefully acknowledges the following corporate supporter:

### Hitachi Healthcare Americas

Educational Symposia appreciates all our corporate supporters and exhibitors. A complete list of industry supporters will be provided and acknowledged at the meeting.

## Family Meal Plan

We invite those accompanying you to the meeting to participate in the Family Meal Plan. Sign up for the Family Meal Plan during registration on-site at the meeting registration desk.

## Cancellations

Cancellations must be received in writing. A \$50 processing fee will be applied to all cancellations. Refunds requested in writing prior to **January 5, 2018** will be issued for the amount of tuition paid less the \$50 processing fee. No refunds will be made on or after that date.

## Registration Information

Tuition for live conference includes all course materials, an electronic color course syllabus (printed color syllabus available for \$95, advanced purchase only), a welcome reception, daily breakfasts and après-ski breaks Monday through Thursday. Early registration is strongly suggested. There will be a \$100 surcharge for anyone registering after **January 25, 2018**. Minimum and maximum attendance levels have been established for this meeting. If your registration cannot be accepted, you will be issued a full tuition refund.

Tuition for live webcast includes participation for one registrant. Each registrant must sign-in on a separate computer to receive credit. Prior to the meeting we will send you further information about the log in process. We will also send you an electronic color course syllabus via email. If you have any questions or problems logging into the meeting we will have support personnel available at (813) 806-1000. There will be a \$100 surcharge for anyone registering after **January 25, 2018**.

Please note: A minimum number of registrants is required to live webcast this course. If the minimum number is not met by **January 5, 2018** the live webcast activity may be cancelled and a full refund issued.

# New Advances in MR & CT

## About The Meeting

This symposium provides a practical yet cutting edge approach to the clinical applications of MRI and CT. Topics include neuroimaging, cardiovascular, body, and musculoskeletal applications of CT and MR. Lectures with integrated workstation case reviews demonstrate modern image display and basic post processing applications. Emphasis of this meeting is on the practical and clinical uses of new technologies. Faculty members have been selected for their teaching ability, as well as their expertise.

Integrated Workstation Case Reviews will be presented using Vital Images advanced visualization software.

## Target Audience

This CME activity is primarily intended and designed to educate diagnostic imaging physicians who perform and interpret MRI and CT examinations. It should also be useful in educating referring physicians who order MRI and CT procedures, as well as radiologic technologists.

## Educational Objectives

Attendees should, at the completion of this course, be able to:

- Utilize high resolution CT to evaluate lung and gastrointestinal disease.
- Optimize MR and CT imaging protocols.
- Differentiate normal from abnormal CT and MR findings of common neurological, cardiopulmonary, musculoskeletal and abdominal disorders.
- More accurately assess neurological disorders using MR and CT.
