ABOUT THE MEETING

This course provides a practical, clinically relevant review of common pediatric imaging protocols and techniques. Expert faculty share pearls and pitfalls in abdominal, vascular, musculoskeletal, and neuroradiology. Discussion includes the advantages of using advanced imaging technology, multimodality imaging techniques, image characteristics and quality improvements aimed at improving patient outcomes.

TARGET AUDIENCE

This course should benefit pediatric radiologists, physicians who supervise and interpret pediatric imaging studies and technologists who perform these procedures. This course should also prove valuable for physicians who order pediatric imaging studies.

ACCREDITATION

Physicians: Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Educational Symposia designates this live activity for a maximum of 17.25 *AMA PRA Category 1 Credit(s)*TM. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Technologists: This program has been submitted to the ASRT. The number of A CE credits will be available approximately 30 days prior to the meeting. Please visit www.edusymp.com or call (813) 806-1000 regarding the availability of Category A CE credit.

Self-Assessment Modules (SAMs): Educational Symposia has been granted Deemed Status by the American Board of Radiology (ABR). This allows Educational Symposia to develop and implement SAMs that satisfy ABR Part II MOC requirements.

EDUCATIONAL OBJECTIVES

Attendees should, at the completion of this course, be able to:

- Discuss the challenges radiologists face when caring for a pediatric patient.
- Minimize the risks of ionizing radiation exposure to the pediatric patient.
- Utilize technical advances to maximize image quality yet minimize radiation exposure dose.
- Recognize key image features associated with pediatric chest, GI, GU, neuro, vascular and musculoskeletal disorders.
- Incorporate quality improvement processes to increase the standard of pediatric care in radiology.
- Effectively communicate with pediatric patients, their patients and referring physicians.
- Apply protocols to efficiently evaluate the non-accidental trauma patient.

No special educational preparation is required for this CME activity.

REGISTRATION & CANCELLATION INFORMATION

Early registration is strongly suggested as capacity may be limited. We will accept registrations on a first-come basis due to possible restriction on the number of registrants able to attend this course in person. Should you register to attend the meeting in-person and the meeting is not able to proceed as a live event, you will have the option to participate in the virtual meeting, receive a tuition credit, or a full refund.
