ABOUT THE MEETING...

The **30th Annual Residents' Radiology Review Course** will cover a wide range of topics common to most current diagnostic radiology practices. It is organized in focus sessions ranging from Musculoskeletal, Abdomen/Pelvis, Chest to Neuroradiology/Head and Neck. Some discussions on related image guided interventions can also be found.

TARGET AUDIENCE

The course is designed for senior radiology residents as well as for practicing radiologists who desire a comprehensive review of the entire field of Diagnostic Radiology.

ACCREDITATION

The University of California, San Diego School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The University of California, San Diego School of Medicine designates this educational activity for a maximum of 50.50 *AMA PRA Category 1 Credits*™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Category A/A+ CE Credit is pending approval by the ASRT.

The number of A CE credits will be available approximately 30 days prior to the meeting. Please visit www.edusymp.com/ucsd or call 1-800-338-5901 regarding the availability of Category A CE credit.

EDUCATIONAL OBJECTIVES

Attendees should, at the completion of this course, be able to:

- Know the differential diagnosis for congenital and adult cardiac disease.
- Describe criteria for interpretation of nuclear medicine studies including lung scanning, cardiac imaging, gastrointestinal and skeletal imaging. Indications and diagnostic interpretation of PET/CT will be discussed.
- Identify the basic vascular and nonvascular interventional procedures.
- Identify the findings of musculoskeletal pathology including internal derangement of joints, articular disease, trauma and neoplastic processes.
- Describe neurological disease states including intracranial neoplasms, cerebral vascular diseases and findings associated with head trauma.
- Describe and identify disease states of the chest and abdomen in the adult and pediatric patient. Determine which imaging modality is best for the diagnosis of abdominal and pelvic diseases. Know the sonographic manifestations of fetal anomalies. Differentiate normal from abnormal obstetrical sonography.
- Describe abnormal findings on mammography, determine which lesions need further evaluations, and know the BIRAD categories and the correlative management.

No special educational preparation is required for this CME activity.

REGISTRATION INFORMATION

Tuition includes all course materials, including a comprehensive course syllabus, daily continental breakfasts and coffee breaks. Early registration is strongly suggested. There will be a \$100 surcharge for anyone registering after March 25, 2010. Minimum and maximum attendance levels have been established for this meeting. If your registration cannot be accepted, you will be issued a full tuition refund.

Cancellations must be received in writing. A \$50 processing fee will be applied to all cancellations. Refunds requested in writing prior to March 5, 2010 will be issued for the amount of tuition paid less the \$50 processing fee. No refunds will be made on or after that date.

NEEDS ASSESSMENT

This course helps the graduating resident complete his/her knowledge of radiology and prepare for the practice of radiology. For the practicing radiologist, it offers a comprehensive review of radiology, as well as an update of state of the art imaging and therapy. The need for this course has been emphasized by past registrants in their written and verbal evaluations.

ABOUT THE MEETING...

This course is designed to provide review of Vascular and Interventional Radiology. The course is composed of didactic lectures and interactive case review sessions. The presentations and comprehensive course syllabus are organized into three categories: 1) Vascular Diagnosis, 2) Vascular Interventions, and 3) Non-Vascular Interventions. The presentations will cover patient selection, procedural techniques, anticipated outcomes, potential complications, and post-procedure patient management. The interactive Case Review Sessions will allow course participants to review and assess their skills on illustrative cases.

TARGET AUDIENCE

Diagnostic Radiology Residents desiring comprehensive review of Vascular and Interventional Radiology; Diagnostic Radiologists who perform invasive procedures; and Interventional Radiology Fellows.

ACCREDITATION

The University of California, San Diego School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The University of California, San Diego School of Medicine designates this educational activity for a maximum of 7.25 *AMA PRA Category 1 Credits*™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Category A/A+ CE Credit is pending approval by the ASRT.

The number of A CE credits will be available approximately 30 days prior to the meeting. Please visit www.edusymp.com or call 1-800-338-5901 regarding the availability of Category A CE credit.

EDUCATIONAL OBJECTIVES

Attendees should, at the completion of this course, be able to:

- Have a thorough understanding of the pertinent and essential principles of Vascular and Interventional Radiology.
- Know the indications, anticipated outcomes and potential complications of common interventional radiologic procedures.
- Be familiar with the materials and technical details for procedure performance.
- Be able to discuss interventional radiologic cases presented at the viewbox.

No special educational preparation is required for this CME activity

REGISTRATION INFORMATION

Tuition includes all course materials, including a comprehensive course syllabus, daily continental breakfasts and coffee breaks. Early registration is strongly suggested. There will be a \$100 surcharge for anyone registering after March 25, 2010. Minimum and maximum attendance levels have been established for this meeting. If your registration cannot be accepted, you will be issued a full tuition refund.

Cancellations must be received in writing. A \$50 processing fee will be applied to all cancellations. Refunds requested in writing prior to March 5, 2010 will be issued for the amount of tuition paid less the \$50 processing fee. No refunds will be made on or after that date.

NEEDS ASSESSMENT

Written program feedback from our prior twenty courses has strongly supported the need for this Interventional Radiology Review Course. Prior participants have indicated the course is essential for maintaining a high standard of care and being introduced to new medical concepts.

MEETING INFORMATION

CULTURAL AND LINGUISTIC COMPETENCY

This activity is in compliance with California Assembly Bill 1195 which requires continuing medical education activities with patient care components to include curriculum in the subjects of cultural and linguistic competency. Cultural competency is defined as a set of integrated attitudes, knowledge, and skills that enables health care professionals or organizations to care effectively for patients from diverse cultures, groups, and communities. Linguistic competency is defined as the ability of a physician or surgeon to provide patients who do not speak English or who have limited ability to speak English, direct communication in the patient's primary language. Cultural and linguistic competency was incorporated into the planning of this activity. Additional resources on cultural and linguistic competency and information about AB1195 can be found on the UCSD CME website at <http://cme.ucsd.edu>.
