Head & Neck Imaging:
What You Need to Know

July 19 – 31, 2016

Cruise the British Isles aboard the Caribbean Princess
Roundtrip from London (Southampton), England
Dear Course Participant,

Thank you for your participation in this course. You should have received an e-mail to the Course Landing Page. On this page you will find the link to the Course Evaluation.

The course evaluation is an accreditation requirement. Below please find a direct link:

https://www.surveymonkey.com/r/HNIC16

The feedback you provide as a course participant will help us evaluate the effectiveness of this program and will assist us in developing future activities.

Thank you!
Educational Symposia
In accordance with the Accreditation Council for Continuing Medical Education’s Standards for Commercial Support, Educational Symposia requires that all Planning Committee, academic faculty members, and peer reviewer(s) involved in the development of CME content disclose financial relationships which have relevance to the CME content of the activity. An individual has a relevant financial relationship if he or she (or his or her spouse/partner) has a financial relationship in any amount occurring in the last 12 months with a commercial interest whose products or services are discussed in this CME activity, and over which the individual has content control.

The Planning Committee, academic faculty members, and peer reviewer(s) for this symposium were required to complete a Full Disclosure Form, and their disclosures, if any, are listed below. If relationships were identified, those Planning Committee and/or faculty members, and/or peer reviewer(s) attested that such relationship(s) would not cause them to be commercially biased. In addition, each has signed a Resolution of Conflict of Interest form agreeing that, when developing or presenting content discussing healthcare products or services with those manufacturers or providers with whom he or she (or his or her spouse/partner) has a relevant financial relationship, they will: (1) use the “best available evidence” in the specialty or therapeutic area as support for any statements he or she makes about those products or services; (2) not make patient care or practice recommendations based on his or her “clinical experience” only, although he or she may indicate that a particular product or service is utilized in his or her practice; and (3) not express a personal or professional preference for those products or services.

Faculty members have been advised that if their lectures will include discussion of off label or investigational use of any product, they must disclose this to the audience.

The Planning Committee, academic faculty members, and peer reviewer(s) for this activity have no relevant financial relationships to disclose.

Head & Neck Imaging: What You Need to Know
Cruise the British Isles aboard the Caribbean Princess
Roundtrip from London (Southampton), England
July 19 – 31, 2016

FACULTY

Suresh K. Mukherji, M.D., M.B.A., F.A.C.R.
Professor & Chairman
Walter F. Patenge Endowed Chair
Department of Radiology
Michigan State University
Chief Medical Officer
Michigan State University Health Team
East Lansing, MI
Head & Neck Imaging: What You Need to Know
Cruise the British Isles aboard the Caribbean Princess
Roundtrip from London (Southampton), England

July 19 – 31, 2016

TARGET AUDIENCE

This meeting is primarily designed for community radiologists who wish to gain a better understanding of head and neck radiology and neuroradiologists with a desire to obtain further understanding on how imaging findings directly impact patient care. ENT physicians, neurologists and other physicians who care for patients with head and neck disorders should also find this program beneficial.

EDUCATIONAL OBJECTIVES

Attendees should, at the completion of this course, be able to:

• Optimize imaging protocols to evaluate head and neck pathology more accurately and efficiently.

• Integrate state of the art imaging protocols to effectively evaluate head and neck pathology into clinical practice.

• Identify normal anatomical features and common anomalies of the head and neck.

• Recognize image characteristics of pathology in the head and neck.

• Discuss the impact of imaging on care and management in patients with head and neck pathology.

No special educational preparation is required for this CME activity.

ACCREDITATION

Physicians: Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Educational Symposia designates this live activity for a maximum of 12.0 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
CME APPLICATION

DEGREE: [ ] M.D. [ ] D.O. [ ] R.D.M.S. [ ] OTHER ________

A. Educational Symposia designates this live activity for a maximum of 12.0 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

B. In order to obtain a Certificate of Attendance or to obtain AMA PRA Category 1 Credit(s)™ for your attendance, please complete this form and turn in to Dr. Mukherji immediately following the last lecture you attend. You must write in the number of credits you are claiming.

C. CME Certificates of Attendance will be MAILED TO YOU. You should receive your Certificate of Attendance within thirty days after the conclusion of this meeting. Please print clearly.

1. NAME ___________________________ 2. SPECIALTY ______________________

*Please note that faculty members may not claim credit for the portion of the program in which they are speaking.
# TABLE OF CONTENTS

**FRIDAY, JULY 22, 2016**

- Normal Anatomy of the Larynx: The Basics ................................................................. 1
- Larynx: Infections and Neoplasms ............................................................................ 9
- A Simplified Approach of the Anterior Skull Base: What You Need to Know ............ 21

**TUESDAY, JULY 26, 2016**

- Brachial Plexus ........................................................................................................ 37
- Common Cranial Neuropathies ................................................................................ 55
- Emergency Head & Neck Radiology: What You Need to Know in the Middle of the Night .................................................. 69
- Simplified Approach to the Lymph Nodes of the Head & Neck .................................. 83
- Infectious and Inflammatory Processes of the Sinuses ............................................. 95
- Common Neoplasms of the Sinus: The Basics ......................................................... 107
- Pediatric Case Based Review .................................................................................... 119

**FRIDAY, JULY 29, 2016**

- Workshop: The Basics of the Spaces of the Head and Neck .................................... 135
- Normal Anatomy of the Oral Cavity and Oropharynx .............................................. 145
- Pathology of the Oral Cavity and Oropharynx ......................................................... 159
- The Basics of the Temporal Bone .......................................................................... 169
- Common Pathology of the Temporal Bone .............................................................. 179
- PET/CT in Head and Neck Imaging ......................................................................... 193
- Missed Case Review ............................................................................................... 207
