

A Practical Approach to Surgical and Cytopathology

Volume III

Release Date: July 1, 2017

About This CME Teaching Activity

This CME activity has been designed to provide a very practical yet comprehensive review of gastrointestinal, genitourinary, breast, pulmonary and gynecologic pathology. It includes an overview of diagnostic pearls leading to an accurate diagnosis as well as how to best avoid diagnostic pitfalls. Integrated throughout the program in an overview of diagnostic immunohistochemical and molecular genetic techniques describing their clinical benefits and pitfalls.

Target Audience

This CME activity is primarily designed to educate practicing pathologists.

Scientific Sponsor

Educational Symposia

Accreditation

Physicians: Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Educational Symposia designates this enduring material for a maximum of 16.25 *AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

All activity participants are required to pass a written or online test with a minimum score of 70% in order to be awarded credit. (Exam materials, if ordered, will be sent with your order.) All course participants will also have the opportunity to critically evaluate the program as it relates to practice relevance and educational objectives.

**AMA PRA Category 1 Credit(s)[™]
for this activity may be claimed until June 30, 2020.**

This CME activity was planned and produced by Educational Symposia, a leader in continuing medical education since 1975.

This activity was planned and produced in accordance with the ACCME Essential Areas and Elements.

Educational Objectives

At the completion of this CME teaching activity, you should be able to:

- Recognize the major diagnostic pitfalls in the diagnosis of Barrett's esophagus and Barrett's-related dysplasia.
- Discuss the more recently recognized variants of ulcerative colitis as well as the major issues related to diagnosing dysplasia in the setting of inflammatory bowel disease.
- Identify some of the major diagnostic issues in the most common colorectal polyps including serrated polyps.
- Employ the diagnostic approach to assessing difficult prostate needle biopsy specimen.
- Explain the nomenclature and diagnostic approach to flat and papillary lesions of the urinary bladder.
- Describe the newest classification of renal tumors.
- Employ an approach to lobular lesions of the breast.
- Recognize problematic issues in core needle biopsies of the breast.
- Illustrate how to assess and fully evaluate margins in lumpectomy specimens.
- Discuss difficult diagnostic issues in endometrial biopsy specimens.
- Identify the most essential diagnostic issues in cervical biopsy specimens.
- Describe the approach to difficult mucosal lesions of the head and neck.
- Discuss the newer aspects of molecular alterations in thyroid neoplasms.
- Review the approach to difficult lesions of the salivary glands.
- Describe the essential elements of diagnosing non-small cell lung carcinoma in the molecular era.
- Discuss the new WHO classification of lung tumors.
- Employ a diagnostic approach to interstitial lung diseases.

No special educational preparation is required for this CME activity.

A Practical Approach to Surgical and Cytopathology

Volume III

Faculty

Carol Farver, M.D.

*Director of Pulmonary Pathology
Department of Pathology
Cleveland Clinic
Professor of Pathology
Cleveland Clinic Lerner College of Medicine at Case Western Reserve
University School of Medicine
Cleveland, OH*

John R. Goldblum, M.D.

*Chairman, Department of Pathology, Cleveland Clinic
Professor of Pathology, Cleveland Clinic Lerner College of Medicine
Cleveland, OH*

Jennifer L. Hunt, M.D.

*Chair of Pathology and Laboratory Medicine
Aubrey J. Hough Jr, Endowed Professor (with tenure)
Pathology and Laboratory Medicine
University of Arkansas for Medical Sciences
Little Rock, AR*

Marisa Rose Nucci, M.D.

*Associate Professor of Pathology, Harvard Medical School
Director, Pathology Residency Training Program
Associate Pathologist, Division of Women's and Perinatal Pathology
Department of Pathology, Brigham and Women's Hospital
Associate Member, Cancer Program and Sarcoma Program
Dana Farber/Harvard Cancer Center
Boston, MA*

Stuart J. Schnitt, M.D.

*Vice Chair for Anatomic Pathology, Beth Israel Deaconess Medical Center
Professor of Pathology, Harvard Medical School
Boston, MA*

Ming Zhou, M.D., Ph.D.

*Professor of Pathology
Director of Anatomic Pathology,
University of Texas Southwestern Medical Center
Dallas, TX*

A CME Teaching Activity

A Practical Approach to Surgical and Cytopathology

Volume III

Program

Session 1

Controversies in the Diagnosis of Barrett's Esophagus
John R. Goldblum, M.D.

Diagnostic Approach to Difficult Prostate Needle Biopsies
Ming Zhou, M.D., Ph.D.

Session 2

Lobular Carcinoma In Situ and Problematic In Situ Lesions
of the Breast
Stuart J. Schnitt, M.D.

Practical Issues Related to the Endometrial Biopsy I
Marisa Rose Nucci, M.D.

Session 3

Mucosal Lesions of the Head and Neck
Jennifer L. Hunt, M.D.

Diagnosing Non-Small Cell Lung Carcinoma in the
Molecular Age: Doing More With Less
Carol Farver, M.D.

Session 4

Nomenclature of Colorectal Polyps: Controversies and
Confusion
John R. Goldblum, M.D.

What's New in Lumpectomy Margin Evaluation?
Stuart J. Schnitt, M.D.

Session 5

Diagnostic Approach to Flat and Papillary Urothelial Lesion
Ming Zhou, M.D., Ph.D.

Practical Issues Related to the Endometrium Biopsy II
Marisa Rose Nucci, M.D.

Session 6

What's New in the World Health Organization Classification
of Lung Tumors
Carol Farver, M.D.

Thyroid Pathology in the Molecular Era
Jennifer L. Hunt, M.D.

Pattern Based Approach to Diagnosis and Classification of
Renal Tumors
Ming Zhou, M.D., Ph.D.

Session 7

An Update on Salivary Gland Lesions
Jennifer L. Hunt, M.D.

Problematic Issues in Breast Core Needle Biopsies
Stuart J. Schnitt, M.D.

Session 8

Practical Issues Related to the Cervical Biopsy Specimen
Marisa Rose Nucci, M.D.

Interstitial Lung Pathology: What Every Pathologist
Needs to Know
Carol Farver, M.D.

Session 9

IBD and IBD-Related Dysplasia
John R. Goldblum, M.D.
