A minimum number of registrants is required to live webcast this course. If the minimum number is not met by October 4, 2019 for live webcast activity may be canceled and a full refund issued.

**TARGET AUDIENCE**
The course will greatly benefit physicians and sonographers in the fields of obstetric imaging, fetal echocardiography and pediatric cardiology, in keeping with progress in this field.

**EDUCATIONAL OBJECTIVES**
Attendees should, at the completion of this course program, provide the most up-to-date reference on this subject, presented by international leaders in the field. We hope that you will join us.

**STUDENT SPOONOR**
Educational Symposia

**ACCREDITATION**
Educational Symposia designates this live activity for a maximum of 25.5 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**EDUCATIONAL OBJECTIVES**
Accreditation shall be at the completion of the course, to be able to:
- Discuss the role of fetal echocardiography in current guideline and the approach to patient counseling.
- Obtain advanced equipment for the use of 3D and Doppler in fetal echocardiography.
- Review the normal fetal cardiac anatomy.
- Describe the anatomic variations of the normal heart.
- Discuss in detail abnormalities of the cardiac chambers to include septal defects and anomalies of the right and left ventricles.
- Review in detail abnormalities of the fetal heart to include transpositions of great arteries.
- Discuss the complex and acute abnormalities.

**PAST ATTENDEES SAY:**
"All the course and information presented were done so very effectively.”
"Very impressed, learned a lot."
"If you attend this conference twice, you’ve been to the best one ever.”

**ABOUT THE MEETING**
It is with great pleasure that we present this course entitled Fetal Echocardiography: Normal and Abnormal. This course provides the most up-to-date reference on this subject, presented by international leaders in the field.

**THEME**
Fetal Echocardiography: Normal and Abnormal

**FEES**
Early bird registration fees may apply.

**WEBCAST REQUIREMENTS**
A minimum number of registrants is required to live webcast this course. If the minimum number is not met by October 4, 2019 for live webcast activity may be canceled and a full refund issued.
**COURSE ORGANIZATION**

This program is planned and reviewed by Educational Symposia, a leader in continuing medical education since 1975.

**ACKNOWLEDGEMENT**

**Echocardiography:**

Fetal Echocardiography: Normal and Abnormal Hearts

**Course Information:**

**TARGET AUDIENCE**

This course will greatly benefit physicians and sonographers in the fields of obstetric imaging, fetal echocardiography and pediatric cardiology.

**EDUCATIONAL OBJECTIVES**

After participating in this program, attendees will be able to:

• Discuss indications for fetal echocardiography, and sonographers wanting to gain a more in-depth knowledge of fetal echocardiography.

• Optimize ultrasound equipment for the use of 2D and Doppler in fetal echocardiography.

**SCIENTIFIC SPONSOR**

Educational Symposia

**ACCREDITATION**

Physicians: Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Educational Symposia designates this live activity for a maximum of 19.75 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Technologists: This program has been submitted to the ASRT for a maximum of 19.75 APEX Category 1 Credit(s). Technologists should claim only the credit commensurate with the extent of their participation in the activity.

**TARGET AUDIENCE**

• Physicians specializing in maternal fetal medicine and pediatric cardiology.

• Residents in obstetrics and gynecology, as well as sonographers in the fields of obstetric imaging, fetal echocardiography and pediatric cardiology.

• Fellows in maternal fetal medicine and pediatric cardiology.

• Sonographers wanting to gain a more in-depth knowledge of fetal echocardiography.

This course provides a broad review and dialogue on fetal echocardiography and should be extremely beneficial to physicians and sonographers wanting to gain a more in-depth knowledge of fetal echocardiography.
