

A CME Teaching Activity

Classic Lectures in Pathology: What You Need to Know

Genitourinary Pathology

Release Date: January 1, 2019 | 8.0 AMA PRA Category 1 Credit(s)TM

About This CME Teaching Activity

This CME Activity offers a practical review of genitourinary pathology combining basic to advanced techniques, pearls and pitfalls to pathologic diagnosis and case reviews.

Target Audience

This CME activity is intended and designed to educate pathologists.

Scientific Sponsor

Educational Symposia

Accreditation

Physicians: Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Educational Symposia designates this enduring material for a maximum of 8.0 AMA PRA Category 1 Credit(s)TM. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

All activity participants are required to take a written or online test in order to be awarded credit. (Exam materials, if ordered, will be sent with your order.) All course participants will also have the opportunity to critically evaluate the program as it relates to practice relevance and educational objectives.

AMA PRA Category 1 Credit(s)TM
for this activity may be claimed until December 31, 2021.

This CME activity was planned and produced by Educational Symposia, a leader in continuing medical education since 1975.

This activity was planned and produced in accordance with the ACCME Essential Areas and Elements.

Educational Objectives

At the completion of this CME teaching activity, you should be able to:

- Employ the diagnostic approach to assessing difficult prostate needle biopsy specimen.
- Explain the nomenclature and diagnostic approach to flat and papillary lesions of the urinary bladder.
- Describe the newest classification of renal tumors.
- Understand and apply the International Society of Urologic Pathology WHO Gleason grading guidelines for prostate cancer.
- Be aware of and be able to diagnose newly recognized tumors of the kidney.
- Describe the importance of key pathologic parameters in the management of patients with T1 bladder cancer.
- Discuss the importance of key pathologic parameters in the management of patients with T1 bladder cancer.

No special educational preparation is required for this CME activity.

Classic Lectures in Pathology: What You Need to Know

Genitourinary Pathology

Faculty

David J. Grignon, M.D., FRCP(C)

*Centennial Professor & Vice Chair for Clinical Programs
Department of Pathology & Laboratory Medicine
Indiana University & IU Health
Indianapolis, IN*

Michelle S. Hirsch, M.D., Ph.D.

*Associate Professor of Pathology, Harvard Medical School
Associate Pathologist, Brigham and Women's Hospital
Division of Women's & Perinatal Pathology
Chief, Genitourinary Pathology Service
Boston, MA*

Ming Zhou, M.D., Ph.D.

*Professor of Pathology
Director of Anatomic Pathology,
University of Texas Southwestern Medical Center,
Dallas, TX*

Program

Session 1

A Contemporary Approach to Prostate Pathology

Michelle S. Hirsch, M.D., Ph.D.

Updates in Renal Epithelial Neoplasia

Michelle S. Hirsch, M.D., Ph.D.

Session 2

A Practical Approach to the Use of Biomarkers in Genitourinary Pathology

Michelle S. Hirsch, M.D., Ph.D.

Diagnostic Approach to Difficult Prostate Needle Biopsies

Ming Zhou, M.D., Ph.D.

Session 3

Diagnostic Approach to Flat and Papillary Urothelial Lesion

Ming Zhou, M.D., Ph.D.

Pattern Based Approach to Diagnosis and Classification of Renal Tumors

Ming Zhou, M.D., Ph.D.

The Critical Role of the Pathologist in the Management of Bladder Cancer

David J. Grignon, M.D., FRCP(C)

Session 4

Reporting of Prostate Cancer in Needle Biopsy Specimens: Gleason Grading and More

David J. Grignon, M.D., FRCP(C)

The 2016 WHO Classification of Kidney Tumors: New Entities and Diagnostic Challenges

David J. Grignon, M.D., FRCP(C)
