

A CME Teaching Activity

Classic Lectures in Pathology: What You Need to Know

Head & Neck Pathology

Release Date: January 1, 2019 | 10.5 AMA PRA Category 1 Credit(s)TM

About This CME Teaching Activity

This CME Activity offers a practical review of head and neck pathology combining basic to advanced techniques, pearls and pitfalls to pathologic diagnosis and case reviews.

Target Audience

This CME activity is intended and designed to educate pathologists.

Scientific Sponsor

Educational Symposia

Accreditation

Physicians: Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Educational Symposia designates this enduring material for a maximum of 10.5 AMA PRA Category 1 Credit(s)TM. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

All activity participants are required to take a written or online test in order to be awarded credit. (Exam materials, if ordered, will be sent with your order.) All course participants will also have the opportunity to critically evaluate the program as it relates to practice relevance and educational objectives.

**AMA PRA Category 1 Credit(s)TM
for this activity may be claimed until December 31, 2021.**

This CME activity was planned and produced by Educational Symposia, a leader in continuing medical education since 1975.

This activity was planned and produced in accordance with the ACCME Essential Areas and Elements.

Educational Objectives

At the completion of this CME teaching activity, you should be able to:

- Recognize mimickers and variants of unique head and neck tumors.
- Achieve a better understanding of salivary gland pathology in the molecular era.
- Recognize lesions of the sinonasal tract and differentiate bad actors from benign lesions.
- Differentiate mucosal lesions of the head and neck.
- Describe the diagnostic approach to difficult mucosal lesions of the head and neck.
- Discuss the newer aspects of molecular alterations in thyroid neoplasms.
- Review the approach to difficult lesions of the salivary glands.

No special educational preparation is required for this CME activity.

A CME Teaching Activity

Classic Lectures in Pathology: What You Need to Know

Head & Neck Pathology

Faculty

Jennifer L. Hunt, M.D.

*Chair of Pathology and Laboratory Medicine
Aubrey J. Hough Jr, Endowed Professor (with tenure)
Pathology and Laboratory Medicine
University of Arkansas for Medical Sciences
Little Rock, AR*

Lester D. R. Thompson, M.D.

*Consultant Pathologist
Department of Pathology
Southern California Permanente Medical Group
Woodland Hills, CA*

Program

Session 1

Unique Head and Neck Lesions
Part 1

Lester D. R. Thompson, M.D.

Session 2

Unique Head and Neck Lesions
Part 2

Lester D. R. Thompson, M.D.

Session 3

Salivary Gland Pathology in the
Molecular Era Old Friends, Old Foes,
and New Acquaintances

Jennifer L. Hunt, M.D.

Session 4

Lesions of the Sinonasal Tract:
From Benign to Banal to Bad Actors

Jennifer L. Hunt, M.D.

Potpourri of Head and Neck Cancer

Jennifer L. Hunt, M.D.

Session 5

Pearls and Pitfalls in Early Neoplasia
of the Head and Neck

Jennifer L. Hunt, M.D.

Session 6

Mucosal Lesions of the
Head and Neck

Jennifer L. Hunt, M.D.

An Update on Salivary Gland
Lesions

Jennifer L. Hunt, M.D.
