Days

Nuclear Medicine Uptake and Review 2020

12.0 AMA PRA Category 1 Credit(s)TM

June 30 - July 11, 2020

Scandinavia & Russia Aboard the Sky Princess
Roundtrip from Copenhagen, Denmark

Tuition
\$1,095⁰⁰ per person

Early registration is strongly suggested.
Tuition includes a comprehensive downloadable
electronic course syllabus.

Book By February 21, 2020

About The Meeting

This symposium is structured to provide a comprehensive review of general nuclear medicine and state of the art imaging. The latest applications, protocols, and tracers used in PET/CT and SPECT/CT will be presented and reinforced through challenging Nuclear Medicine and PET/CT studies. The focus of the program is how to effectively use these imaging modalities to aid in the detection, assessment and management of many different disorders. **To reinforce the didactic lectures, Dr. Brown is asking attendees to bring interesting/difficult cases for group discussion. Please bring anonymized cases on a USB drive.**

Target Audience

This CME activity should benefit practicing radiologists, and oncologists interested in the evolving techniques and applications of PET/CT and SPECT/CT imaging. The course should also prove valuable for physicians who order these studies.

Scientific Sponsor

Educational Symposia

Accreditation

Physicians: Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Educational Symposia designates this live activity for a maximum of 12.0 AMA PRA Category 1 Credit(s)TM. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Educational Objectives

Attendees should, at the completion of this course, be able to:

- Describe the use of PET/CT in the assessment and follow up of neurological disorders.
- Evaluate the role of PET/CT and SPECT/CT in the detection and management of a broad range of disorders.
- Improve diagnostic skills by reviewing and discussing challenging cases.
- Describe the clinical applications of new tracers used in clinical practice.

No special educational preparation is required for this CME activity.

Faculty

Richard K.J. Brown, M.D., FACP

Professor
Division of Nuclear Medicine
Director, General Clinical Nuclear Imaging
Department of Radiology
University of Michigan Health System
Ann Arbor, MI

Program

Thursday, July 2, 2020

8:30 – 9:30 AM	Nuclear Brain Imaging
9:30 – 9:40	Break with Question and Answer Session
9:40 – 10:40	Clinical Applications of SPECT/CT
10:40 – 10:50	Break with Question and Answer Session
10:50 – 11:50	PET/CT Review
11:50 – 2:00 PM	Lunch Break
2:00 – 3:30	New Tracers and Challenging PET/CT Cases
3:30	End of Session

Saturday, July 4, 2020

8:30 – 9:30 AM	Nuclear Cardiac Imaging Review
9:30 – 9:45	Break with Question and Answer Session
9:45 – 11:45	General Nuclear Medicine Review and Challenge Cases
11:45 – 2:00 PM	Lunch Break
2:00 – 4:00	General Nuclear Medicine Review and Challenging PET Cases Continued
4:00	End of Session

Friday, July 10, 2020

9:00 – 10:00 AM	Evaluating Response to Therapy, Things to Consider
10:00 – 10:10	Break with Question and Answer Session
10:10 – 11:40	Audience Submitted Challenge Cases - Bring Your Interesting Cases for Group Discussion
11:40	End of Course

Faculty, topics & itinerary subject to change.

SPECIAL NOTE FOR THE DISABLED: Educational Symposia wishes to ensure that no individual with a disability is excluded, denied services, segregated or otherwise treated differently from other individuals because of the absence of auxiliary aids and services. If you need any auxiliary aids or services identified in the Americans with Disabilities Act, please contact our office at (813) 806-1000.
