

A CME Teaching Activity

Classic Lectures in Pathology: What You Need to Know

# Endocrine Pathology

Release Date: April 15, 2019 | 10.5 AMA PRA Category 1 Credit(s)<sup>TM</sup>

## About This CME Teaching Activity

This CME Activity offers a practical review of endocrine pathology combining basic to advanced techniques, pearls and pitfalls to pathologic diagnosis and case reviews.

## Target Audience

This CME activity is intended and designed to educate pathologists.

## Scientific Sponsor

Educational Symposia

## Accreditation

**Physicians:** Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Educational Symposia designates this enduring material for a maximum of 10.5 AMA PRA Category 1 Credit(s)<sup>TM</sup>. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

All activity participants are required to take a written or online test in order to be awarded credit. (Exam materials, if ordered, will be sent with your order.) All course participants will also have the opportunity to critically evaluate the program as it relates to practice relevance and educational objectives.

**AMA PRA Category 1 Credit(s)<sup>TM</sup>  
for this activity may be claimed until April 14, 2022.**

This CME activity was planned and produced by Educational Symposia, a leader in continuing medical education since 1975.

This activity was planned and produced in accordance with the ACCME Essential Areas and Elements.

## Educational Objectives

At the completion of this CME teaching activity, you should be able to:

- Utilize strict and well-defined criteria in the evaluation and diagnosis of thyroid follicular lesions.
- Describe the various cytomorphologic features of metastatic malignancies, emphasizing differential diagnosis, pitfalls and clues to determine a primary site of origin.
- Discuss the use of ancillary studies in the work-up of metastases, with particular emphasis on immunohistochemistry using an algorithmic approach.
- Recognize the different types of tissue fragments in FNAB specimens, recognize several cytomorphologic patterns of FNAB specimens, and render a diagnosis based on a pattern recognition of FNAB specimen.
- Discuss the newer aspects of molecular alterations in thyroid neoplasms.
- Review the approach to difficult lesions of the salivary glands.
- Render a diagnosis based on pattern recognition of thyroid FNAB specimens and formulate a broad differential diagnosis.
- Recognize the basic architectural pattern seen with salivary gland aspirates and be able to identify and diagnose common benign and malignant salivary gland lesions.
- Render a diagnosis based on pattern recognition and salivary gland FNAB specimens and formulate a broad differential diagnosis.
- Describe the basic technique and pitfall avoidance of fine needle aspiration biopsy performance.

*No special educational preparation is required for this CME activity.*

A CME Teaching Activity

Classic Lectures in Pathology: What You Need to Know

# Endocrine Pathology

## Faculty

**Osama M.A. Abdelatif, M.D.**

*Chairman, Department of Pathology  
Carondelet St. Joseph's Hospital  
Clinical Assistant Professor  
Department of Pathology  
University of Arizona, Health Science Center  
Tucson, AZ*

**Tarik M. Elsheikh, M.D.**

*Professor of Pathology, Cleveland Clinic Lerner  
College of Medicine  
Anatomic Pathology Medical Director  
Cleveland Clinic Laboratories  
Cleveland Clinic  
Cleveland, OH*

**Jennifer L. Hunt, M.D.**

*Chair of Pathology and Laboratory Medicine  
Aubrey J. Hough Jr, Endowed Professor (with tenure)  
Pathology and Laboratory Medicine  
University of Arkansas for Medical Sciences  
Little Rock, AR*

**Lester D. R. Thompson, M.D.**

*Consultant Pathologist  
Department of Pathology  
Southern California Permanente Medical Group  
Woodland Hills, CA*

## Program

**Session 1**

Diagnostically Challenging Surgical  
Pathology Lesion of Endocrine  
Organs Part 1

*Lester D. R. Thompson, M.D.*

**Session 2**

Diagnostically Challenging Surgical  
Pathology Lesion of Endocrine  
Organs Part 2

*Lester D. R. Thompson, M.D.*

**Session 3**

Cytologic Diagnosis of Indeterminate  
Thyroid Lesions and Utilization of  
Molecular Testing

*Tarik M. Elsheikh, M.D.*

Cytologic Workup of Metastases  
of Unknown Primary Site:  
A Clinicopathologic Approach -  
Part 1

*Tarik M. Elsheikh, M.D.*

**Session 4**

Cytologic Workup of Metastases  
of Unknown Primary Site:  
A Clinicopathologic Approach -  
Part 2

*Tarik M. Elsheikh, M.D.*

FNA of the Salivary Glands

*Osama M.A. Abdelatif, M.D.*

**Session 5**

FNA of the Thyroid

*Osama M.A. Abdelatif, M.D.*

**Session 6**

FNA Diagnosis by Pattern  
Recognition

*Osama M.A. Abdelatif, M.D.*

Thyroid Pathology in the  
Molecular Era

*Jennifer L. Hunt, M.D.*
