

A CME Teaching Activity

A Practical Approach to Surgical Pathology

Volume V

Release Date: August 15, 2019 | 16.5 AMA PRA Category 1 Credit(s)TM

About This CME Teaching Activity

This CME activity is designed to provide a comprehensive and practical review of important topics in surgical pathology, including gastrointestinal, pancreaticobiliary, gynecologic, head and neck and genitourinary pathology. Faculty share diagnostic pearls which lead to an accurate diagnosis, as well as advice on how to avoid some of the common diagnostic pitfalls. Much of the discussion is related to pertinent diagnostic immunohistochemical and molecular diagnostic techniques, which allow the pathologist to refine their diagnosis and provide additional prognostic and therapeutic information.

Target Audience

This CME activity is primarily designed to educate practicing pathologists.

Scientific Sponsor

Educational Symposia

Accreditation

Physicians: Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Educational Symposia designates this enduring material for a maximum of 16.5 AMA PRA Category 1 Credit(s)TM. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

All activity participants are required to take a written or online test in order to be awarded credit. (Exam materials, if ordered, will be sent with your order.) All course participants will also have the opportunity to critically evaluate the program as it relates to practice relevance and educational objectives.

AMA PRA Category 1 Credit(s)TM
for this activity may be claimed until August 14, 2022.

This CME activity was planned and produced by Educational Symposia, a leader in continuing medical education since 1975.

This activity was planned and produced in accordance with the ACCME Essential Areas and Elements.

Educational Objectives

At the completion of this CME teaching activity, you should be able to:

- Recognize the major diagnostic pitfalls in the diagnosis of Barrett's esophagus and Barrett's-related dysplasia.
- Discuss the more recently recognized variants of ulcerative colitis as well as some of the issues related to diagnosing IBD-related dysplasia.
- Identify some of the major diagnostic issues in the most common colorectal polyps, including serrated polyps.
- Recognize the most common issues related to non-neoplastic bone pathology.
- Develop an integrated approach to the most common bone tumors seen by practicing pathologists.
- Describe the most common neoplasms seen in the sinonasal region.
- Discuss the diagnostic issues related to squamoproliferative lesions of the head and neck.
- Discuss the diagnostic features of the most common salivary gland tumors.
- Understand the recent advances in the reporting of prostatic adenocarcinoma in needle biopsy specimens.
- Discuss the role of the pathologist in the management of bladder cancer.
- Name the most common epithelial tumors of the kidney.
- Describe the most recent diagnostic challenges in diagnosing and reporting colorectal carcinoma.
- Identify the most important diagnostic pitfalls in pancreatic pathology.
- Recognize the most common forms of gastritis seen in biopsy specimens.

No special educational preparation is required for this CME activity.

A Practical Approach to Surgical Pathology

Volume V

Faculty

Wendy L. Frankel, M.D.

*Kurtz Chair and Distinguished Professor
Chair, Department of Pathology
Director of GI/Liver Pathology Fellowship
The Ohio State University Wexner Medical Center
Columbus, OH*

John R. Goldblum, M.D.

*Chairman, Department of Pathology, Cleveland Clinic
Professor of Pathology, Cleveland Clinic Lerner College
of Medicine
Cleveland, OH*

David J. Grignon, M.D., FRCP(C)

*Centennial Professor & Vice Chair for
Clinical Programs
Department of Pathology & Laboratory Medicine
Indiana University & IU Health
Indianapolis, IN*

Charles Matthew Quick, M.D.

*Associate Professor
Director of Gynecologic Pathology
Department of Pathology
University of Arkansas for Medical Sciences
Little Rock, AR*

John Reith, M.D.

*Staff Pathologist
Department of Pathology
Cleveland Clinic
Cleveland, OH*

Ilan Weinreb, M.D., FRCPC

*University Health Network
Toronto, ON
CANADA*

Program

Session 1

Controversies in the Diagnosis of Barrett's Esophagus

John R. Goldblum, M.D.

Sinonasal Neoplasms: Small Round Blue Cell Tumors and New Entities

Ilan Weinreb, M.D., FRCPC

Session 2

Staging Endometrioid Adenocarcinoma: Pitfalls and Pearls

Charles Matthew Quick, M.D.

Update on Pancreas Pathology

Wendy L. Frankel, M.D.

Session 3

Practical Non-Neoplastic Bone Pathology - the Everyday Stuff

John Reith, M.D.

Contemporary Reporting of Prostatic Adenocarcinoma in Needle Biopsies: A Moving Target

David J. Grignon, M.D., FRCP(C)

Session 4

Squamous Proliferations: From Well-Differentiated In-Situ and Malignant Lesions to HPV and Staging Implications

Ilan Weinreb, M.D., FRCPC

Nomenclature of Colorectal Polyps: Confusion and Controversy

John R. Goldblum, M.D.

Session 5

Endocervical Glandular Lesions: Changes on the Horizon

Charles Matthew Quick, M.D.

An Integrated Approach to Recognizing "Common" Bone Tumors - Part I

John Reith, M.D.

Session 6

An Integrated Approach to Recognizing "Common" Bone Tumors - Part II

John Reith, M.D.

The Critical Role of the Pathologist in Management of Bladder Cancer

David J. Grignon, M.D., FRCP(C)

Session 7

Practical Gastritis

Wendy L. Frankel, M.D.

Salivary Gland Tumors: An Array of Blue, Pink and Clear Tumors and an Evolving Molecular Classification

Ilan Weinreb, M.D., FRCPC

Session 8

Epithelial Kidney Tumors: Problem Diagnoses and New Entities

David J. Grignon, M.D., FRCP(C)

Squamous Dysplasia: Two Take Home Points

Charles Matthew Quick, M.D.

Session 9

Challenges in Colorectal Cancer

Wendy L. Frankel, M.D.

IBD and IBD-Related Dysplasia

John R. Goldblum, M.D.
