## COURSE DESCRIPTION

This 2.5 day conference will educate attendees on the treatment of the most challenging and difficult complex orthopedic cases. World-renowned experts on orthopedic revisions and musculoskeletal oncology will present on the latest technology and technique developments, allowing ample time for discussion and debate. The course is not designed to discuss only “good” results, but the worst, most difficult cases and problems we all face as complex arthroplasty surgeons. This is a forum to share our mistakes and experience so we can all learn from them.

## TARGET AUDIENCE:

Orthopedic surgeons performing or interested in revision or oncology procedures; residents and fellows interested in this field; PAs and other staff involved in complex arthroplasty cases.

## SCIENTIFIC SPONSOR

Educational Symposia

## EDUCATIONAL OBJECTIVES

Attendees should, at the completion of this course, be able to:

- Evaluate and weigh multiple surgical treatment options for complex reconstructions
- Develop a greater awareness of the latest technology available for difficult infection cases
- Cite the latest clinical findings on complex reconstruction outcomes
- Anticipate common complex reconstruction postoperative complications

*No special educational preparation is required for this CME activity.*

## SENIOR RESIDENTS & FELLOWS

Sponsorships Available for up to 10 Senior Residents or Fellows pursuing a complex arthroplasty or tumor career path. Contact us for further details.

## RYDER CUP COMPETITION

Teams will again be vying for the coveted Orthopedic Ryder Cup and two years of bragging rights. The friendly competition will be integrated into the program - bring your “A” game!
