

A CME Teaching Activity

Pathology Review: Hematopathology, Breast, Placenta and Perinatal Pathology

- An Updated Practical Review for the General Pathologist

Release Date: July 1, 2016

About This CME Teaching Activity

This CME teaching activity is designed to provide a practical review of hematopathology, breast pathology, placenta and perinatal pathology. Faculty discuss basic to advanced techniques, pitfalls and pearls to pathology diagnosis. Rounding out the program are interactive case reviews of hematopathology, breast, placenta and perinatal pathology.

Target Audience

This CME activity is primarily designed to educate practicing pathologists.

Scientific Sponsor

Educational Symposia

Accreditation

Physicians: Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Educational Symposia designates this enduring material for a maximum of 16.0 *AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

All activity participants are required to pass a written or online test with a minimum score of 70% in order to be awarded credit. (Exam materials, if ordered, will be sent with your order.) All course participants will also have the opportunity to critically evaluate the program as it relates to practice relevance and educational objectives.

**AMA PRA Category 1 Credit(s)[™]
for this activity may be claimed until June 30, 2019.**

This CME activity was planned and produced by Educational Symposia, a leader in continuing medical education since 1975.

This activity was planned and produced in accordance with the ACCME Essential Areas and Elements.

Educational Objectives

At the completion of this CME teaching activity, you should be able to:

- More accurately evaluate clinical, pathologic patterns in myeloid and lymphoid disorders in blood and bone marrow.
- Review new benign and neoplastic myeloid and lymphoid disorder classifications and revisions according to the 2008 WHO classification.
- More accurately diagnose placental circulatory disorders and their clinical correlations.
- Recognize and assess placental pathology in intrauterine infections.
- Increase understanding of gestational trophoblastic disease.
- More accurately evaluate and diagnose breast lesions.
- Recognize, assess and more accurately understand newer prognostic and predictive factors in breast cancer: relevance to classification, prognosis, treatment and clinical outcome.
- Increase understanding of ER and HER2 testing in breast cancer.
- Review immunohistochemistry in the diagnostic evaluation of breast lesions.

No special educational preparation is required for this CME activity.

Program

Program 1

What's New in Myeloid Disorders in Blood and Bone Marrow

Kathryn Foucar, M.D.

What's New in Lymphoid Disorders in Blood and Bone Marrow (continued on program 2)

Kathryn Foucar, M.D.

Program 2

What's New in Lymphoid Disorders in Blood and Bone Marrow (continued from program 1)

Kathryn Foucar, M.D.

Gestational Trophoblastic Disease: Review and Update (continued on program 3)

Phyllis Huettner, M.D.

Program 3

Gestational Trophoblastic Disease: Review and Update (continued from program 2)

Phyllis Huettner, M.D.

Placental Circulatory Disorders and Their Clinical Correlates

Phyllis Huettner, M.D.

The Placenta in Intrauterine Infections: What Pathologists Need to Know (continued on program 4)

Phyllis Huettner, M.D.

Program 4

The Placenta in Intrauterine Infections: What Pathologists Need to Know (continued from program 3)

Phyllis Huettner, M.D.

Current Issues and Controversies Regarding ER and HER 2 Testing in Breast Cancer

David G. Hicks, M.D.

Program 4 (Continued)

Traditional and Newer Prognostic and Predictive Factors in Breast Cancer: Relevance to Classification, Prognosis, Treatment and Clinical Outcome (continued on program 5)

David G. Hicks, M.D.

Program 5

Traditional and Newer Prognostic and Predictive Factors in Breast Cancer: Relevance to Classification, Prognosis, Treatment and Clinical Outcome (continued from program 4)

David G. Hicks, M.D.

Immunohistochemistry in the Diagnostic Evaluation of Breast Lesions

David G. Hicks, M.D.

Program 6

Hematopathology Case Presentations

Kathryn Foucar, M.D.

Program 7

Placenta and Perinatal Case Presentations – Part 1

Phyllis Huettner, M.D.

Breast Case Presentations – Part 1

David G. Hicks, M.D.

Placenta and Perinatal Case Presentations – Part 2 (continued on program 8)

Phyllis Huettner, M.D.

Program 8

Placenta and Perinatal Case Presentations – Part 2 (continued from program 7)

Phyllis Huettner, M.D.

Breast Case Presentations – Part 2
