# Pathology Review:

## Gynecologic, Genitourinary and Gastrointestinal Pathology for the General Pathologist

**Release Date: July 1, 2016**

### About This CME Teaching Activity

This CME teaching activity is designed to provide a practical review of gynecologic, gastrointestinal and genitourinary pathology. Faculty discuss basic to advanced techniques, pitfalls and pearls to pathology diagnosis. Rounding out the curriculum are interactive case reviews of gynecologic, obstetric, gastrointestinal and genitourinary pathology emphasizing the material.

### Target Audience

This CME activity is primarily designed to educate practicing pathologists.

### Scientific Sponsor

Educational Symposia

### Accreditation

**Physicians:** Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Educational Symposia designates this enduring material for a maximum of 16.0 *AMA PRA Category 1 Credit(s)*<sup>™</sup>. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

All activity participants are required to pass a written or online test with a minimum score of 70% in order to be awarded credit. (Exam materials, if ordered, will be sent with your order.) All course participants will also have the opportunity to critically evaluate the program as it relates to practice relevance and educational objectives.

***AMA PRA Category 1 Credit(s)*<sup>™</sup>  
for this activity may be claimed until June 30, 2019.**

This CME activity was planned and produced by Educational Symposia, a leader in continuing medical education since 1975.

This activity was planned and produced in accordance with the ACCME Essential Areas and Elements.

### Educational Objectives

At the completion of this CME teaching activity, you should be able to:

- More accurately diagnose pathologic disorders in gynecologic and obstetric pathology.
- Demonstrate increased awareness into gynecologic, obstetric, gastrointestinal and genitourinary pathology.
- Recognize, assess and diagnose gastric polyps, dysplasia and their clinical correlations.
- Differentiate neoplastic and non-neoplastic small intestinal pathology.
- Recognize mimickers of bladder carcinoma and increase understanding of the diagnosis and staging of bladder carcinoma.
- Develop a better understanding of the Gleason-Gleason grading system.
- More accurately recognize and evaluate gastrointestinal mesenchymal lesions.
- Recognize mimickers and variants of prostate carcinoma.
- Increase understanding of spindle cell lesions in the genitourinary tract.

*No special educational preparation is required for this CME activity.*
